## About Our Life Care Management Services

Every day, millions of people are caring for a family member or loved one with a serious illness or disability. This can have a negative effect not only on the health of the person providing the care, but also on the relationships involved. It can be taxing financially and emotionally, and turn a healthy relationship into a stressful one.

With seven offices across Pennsylvania, we coordinate and manage the services that support independent living for your client by creating a unique plan of care and orchestrating all aspects of it. We do this while serving as a valuable independent resource and keeping you informed every step of the way.

### General Life Care Management
